*I attended UNO, PKI, and have my BS in Civil Engineering (1999-2004) and went to Bellevue University for my MBA (2006-2007). I have worked at Lamp, Rynearson & Associates (LRA) for nearly 14 years – I started as an intern while attending college and then have progressed from EI, to PE and now to Project Manager. I work primarily on K-12 education projects and absolutely love working on athletic facilities. I have worked on an enormous variety of projects while at LRA and have enjoyed my time very much. I am the coordinator of volunteer team at LRA and am currently a TeamMate for OPS and a mentor for the Careers and Connections program administered by Lutheran Family Services.*

*I am married with three young boys (ages 9,8 and 5) and my wife teaches at Millard South HS. I have lived in Omaha my entire life and love our community. I enjoy being active and exercising with my family and playing sports with my boys. I coach baseball, basketball and the occasional flag football team. My family is a very social family and we love getting together with friends and family nearly every weekend. Our house is the house in the neighborhood where most kids can be found, either playing sports or nerf wars in the yard, jumping on the trampoline, playing the Wii or eating all of our food.*
