I'm a professional geologist registered in Nebraska. I graduated from the University of Nebraska at Omaha with a B.S. in Geology and Environmental Studies. I've been working at Terracon for 10 years, and am currently the Materials Department Manager. I'm responsible for operations administration, planning, and management of field investigations, laboratory testing, and quality assurance material testing and Special Inspection services for Terracon's Omaha office.

My wife, Lisa, and I met while attending college at the University of Nebraska at Kearney. We've been married for over 13 years and have two daughters: Hailey (9) and Whitney (5). In my free time, I enjoy attending my daughter's soccer and dance events. I also enjoy photography, hunting, and hiking.
