*Matt Tondl is a registered professional engineer with 33 years of experience, 27 of them with HDR, for which he is a senior vice president with responsibility for the Nebraska and Iowa engineering operations. The staff he oversees has doubled in size under his leadership, to nearly 400 professionals. The group is the largest consulting engineering practice in the two-state region, providing a vast array of engineering services to over 160 clients encompassing all types of public and private infrastructure.*

*Tondl's technical expertise is in the planning and design of transportation projects. Some of his notable projects include the US 34 Missouri River bridge, West Dodge Expressway I-680 to 129<sup>th</sup>, Eppley Airfield Front drive and parking expansion, and US 75 Kennedy Freeway extension from Bellevue to Plattsmouth. He led the transportation planning for significant developments in the Omaha area including Centurylink Arena/Convention Center, TD Ameritrade Park, and Baxter Arena.*

*Tondl is a strong advocate for infrastructure maintenance and improvements, educating local, state, and federal elected officials, as well as community leaders on the need for continual investment to maintain our quality of life and grow our economy. He currently serves on the University of Nebraska Civil Engineering Advisory Board.*

*He holds Bachelor of Science and Master of Science degrees in Civil Engineering from the University of Nebraska. He is a current and past representative with professional organizations at local and national levels, including serving as president and national director of the Nebraska chapter of the American Council of Engineering Companies.*
