I graduated from Iowa State University in the fall of 2004, receiving a bachelor's degree in Civil Engineering. After graduation, I took a position with Chicago Bridge & Iron, working in several locations throughout the United States and Canada. In 2007, I joined HGM Associates Inc. in Omaha, Nebraska. Working in the structural group, I have experience in bridge inspection, load rating, and design. I became a registered P.E. in 2009 and since that time, have focused on managing bridge design projects from conception to completion.

I was born and raised in northwest Iowa. I have two wonderful children; my daughter Ellie is 9 and my son Jack is 7. The majority of my free time is spent attending activities with my kids, I have been a volunteer coach for both football and baseball teams and enjoy scouting with my son. Hobbies include golf, shooting, college football, and home improvement projects. I love winter and try to go skiing whenever I get the chance.
