*I graduated from the University of Kansas in 1994 with a Bachelor's Degree in Civil Engineering. I currently work for GBA in their Omaha office. Our firm practices in the transportation, water and wastewater, building, and site development markets. Our Omaha offices specializes in the water and wastewater markets. I worked for GBA out of college for 5 years and then spent 10 years working for several different municipalities in the City Engineer, Public Works Director, and City Administrator positions. I have been back at GBA for the past 5 years running the Omaha office.*

*I got remarried a year ago to Gina. She is a pharmacist with Hy-Vee here in Omaha. We have 5 kids between the two of us. I have a girl (17) and two boys (14 and 11), Gina has a girl (12) and a boy (10). With 5 kids, most of my time is taken up trying to keep up with them and their activities (basketball, football, debate and scouts). In my free time, I like to work on improvement projects around the house. This works out well, because Gina likes to come up with improvement projects to keep the both of us busy.*
