Nick is a certified professional transportation planner for Olsson Associates in Omaha, Nebraska with over seven years of experience in local, regional, and statewide transportation programs. Nick has experience in developing and managing complex, multi-jurisdictional projects and programs. Nick has proven experience in building relationships and fostering trust between agencies and organizations.

Nick's experience includes transportation planning, long-range planning, project management, government relations, policy analysis, policy design and implementation, traffic incident management, intelligent transportation systems, GIS, grant writing, grant administration, and civil rights.

Nick completed his bachelor's degree in Political Science from the University of Nebraska at Omaha in 2008 and earned a Master of Public Administration from UNO's School of Public Administration in 2011. At UNO, Nick played tight end during an injury shortened career. Nick continued to work for the team and spent the 2008 season as the tight ends coach. Outside of following football, Nick's hobbies include golf, weight lifting, motorcycles, hockey and obstacle races. Nick also enjoys studying history, anthropology, climate change, politics and the great outdoors.
