*My name is Terry Morrison and I am a professional engineer registered in Nebraska, Iowa and Colorado. I attended South Dakota State University and graduated with a B.S. in Civil and Environmental Engineering. After college I moved to Denver where I worked at a civil consulting firm doing land development design, mostly pertaining to single family residential. In 2008 I moved to Omaha, with my family, and started working for Ehrhart Griffin & Associates as a project engineer. I have since been promoted to Engineering Department Manager where I oversee four engineers and three CAD technicians. At Ehrhart Griffin & Associates I have worked on a wide variety of projects including single family and multi-family residential, commercial and municipal projects, trail projects and educational facilities ranging from preschool to the collegiate level.*

*I grew up on a farm in South Dakota. My wife Erica and I met in college where we both competed on the track team. I was a pole vaulter and ran the mile relay; she was a hurdler. We have been married for 14 years and have a 9 year old son, Alex, and a 7 year old daughter, Grace. I enjoy athletics including volleyball, golf, snow-boarding, biking and lifting weights. I ride motorcycles and enjoy taking trips to the Black Hills.*
