

Get Ready to Play!

Thank you for your registration! Here's everything you need to know to prep your team for a night of fun!

What You Need to Know

The American Council of Engineering Companies, Engineers Club of Omaha and Engineers Club of Lincoln is excited to have your participation in this inaugural event. The goal is to raise money for engineering scholarships while networking and having fun with engineers and industry friends.

Who Will Be There?

The entire engineering industry is invited! Most tables are reserved by engineering firms and industry partners bringing colleagues, spouses and clients as their guest.

What Will We Do?

The night starts with a cocktail at 5:30 PM. A buffet-style dinner will be served at 7:00 PM. Ten games of Bingo will follow. This isn't just any old game of Bingo, though! At this 21 and over event, you can expect guest callers, activities between rounds, exciting prizes and more. This is an all-play, no-work event - so expect an evening full of fun and laughter.

Plan Your Team and Table Look!

Take the opportunity to set your team and table apart! 'The Good Life' theme may be incorporated in your design, but is not required. Your decorations may include centerpieces, tabletop and chair decorations, etc. Each table will seat 10. Your team is also encouraged to dress in theme if you'd like!

Get more Bang for your Buck!

We have several sponsorship opportunities available. Inquire today!

Contact Anita Brunero at Anita@acecnebraska.org with any questions and for more information!

Thank you for registering to attend the inaugural Good Life Bingo event! The American Council of Engineering Companies, Engineers Club of Omaha and Engineers Club of Lincoln are dedicated to improving the impact of the engineering community on our community. One of the most important programs across these organizations is to support the College Student Assistance Program. Annually, these organizations provide thousands of dollars in support to the educational endeavors of engineering students from the Nebraska area and with your help, we can do more!
